

# Statistical Challenges and Opportunities for the Analysis of Microbiome Data

This two-day workshop will bring together statisticians and applied researchers to explore statistical issues that arise in the analysis of microbiome data and highlight current methodological advances.

**May 10 - 11, 2017**

Apotex Building, 750 McDermot Ave, University of Manitoba, Winnipeg, MB

## Learning objectives

- Increase researcher and trainee knowledge about methods and tools for the analyses of microbiome data;
- Provide networking opportunities for local, national, and international researchers and trainees;
- Identify opportunities for new research about statistical methods for the analysis of microbiome data

**For more information or to register visit:**

**[chimb.ca/events/Dsworkshop2017](http://chimb.ca/events/Dsworkshop2017)**

Registration is free but **space is limited**. Registration deadline is May 1, 2017.

For inquiries, email [DataScience@chimb.ca](mailto:DataScience@chimb.ca).

Travel awards available to PhD students and post-docs.

## Featuring:

- » **Jun Chen**  
Mayo Clinic
- » **Gregory Gloor**  
University of Western Ontario
- » **Shyamal Peddada**  
National Institutes of Health
- » **Tonya Ward**  
University of Minnesota
- » **Charles Bernstein**  
University of Manitoba
- » **Ehsan Khafipour**  
University of Manitoba
- » **Gary Van Domselaar**  
National Microbiology Laboratory
- » **Natalie Knox**  
National Microbiology Laboratory
